*Do you suspect
Your Teen is
using alcohol or
other drugs?*

Teen Intervene™
CAN HELP...

*A program that offers an
opportunity to learn healthy
communication skills and the
importance of establishing family
rules surrounding substance use.*

What is Teen Intervene?

THE PROGRAM

Teen Intervene is administered in three one-hour sessions.

- The first two-sessions are individual dialogue with the adolescent.
- Session three is an individual session with the parent/guardian of the teenager. This session will include a brief wrap-up conversation with both the parent and the adolescent.

Teen Intervene is not intended for those teens who have a substance use disorder or suffer from an untreated psychiatric disorder

GOALS AND OBJECTIVES

- To motivate the teen to change and improve their self-efficiency skills
- Learn about the harmful effects of substance use/abuse
- Learn communication and coping skills
- Establish and reinforce support systems.

Teen Intervene™

is an evidence-based program for teenagers ages twelve to nineteen years old who are:

- Exhibiting mild or moderate problems associated with alcohol or other drug use.
- Experiencing legal consequences
- Experiencing problems at school
- Arguing with family or friends
- Withdrawing from normal activities
